

TOWN OF  
GEORGINA

# Class Environmental Assessment NOTICE OF PUBLIC INFORMATION CENTRE #1

## KESWICK COMMUNITY STORMWATER MANAGEMENT STUDY Town of Georgina

### THE STUDY

The Town of Georgina has initiated a comprehensive Stormwater Management Study for the Keswick Community. This will document the status of existing stormwater management facilities in the community and explore opportunities for retrofits to the entire drainage system to improve its performance. The goal is to improve the quality of storm runoff that discharges to Lake Simcoe to contribute to achieving the goals of the Lake Simcoe Protection Plan. It will also satisfy an agreement made as a condition of approval of OPA 97 relating to the proposed Keswick Business Park.

### THE PROCESS

The project is being undertaken in accordance with the requirements of the *Municipal Class Environmental Assessment* (2007) process as a Master Plan under that Class EA.

Two Public Information Centres will be held during the Study to present the progress and recommendations for the study area. At the completion of the study, a final report will be made available for a 30-day public review period.

Additional notices for this Study will be published in advance of the second Public Information Centre and the public review period for the final report.

### PUBLIC INFORMATION CENTRE #1

The first Public Information Centre will be held at the time and location below to provide details on the Keswick Stormwater Management Study and the progress to date, including an inventory of existing stormwater management facilities. A facilitated Question and Answer session will occur following the presentation.

**Date:** Wednesday, February 24, 2010  
**Open House:** 6:00 pm to 9:00 pm  
**Presentation:** 7:00 pm  
**Location:** Stephen Leacock Theatre Lobby  
130 Gwendolyn Drive, Keswick, Ontario

The second Public Information Centre will be held at a later date to review opportunities for the retrofits to the drainage system.

### PUBLIC COMMENTS INVITED
